Payment plans (Carrier approved)		✅
HMRC- approved driver products and perks		✅
Expert on-site account managers		✅
Dedicated multi-lingual support team		✅
Relationships with international carriers		✅
Complimentary client events		✅

Beamin' is accountancy software that helps self-employed drivers easily manage their income, taking care of all the hard work on their behalf!

It sits within the Wise app, providing one place to manage and see their finances.

How does Beamin' work?

Beamin' introduces drivers to the Flat Rate VAT scheme. The Flat Rate VAT scheme was set up by the HMRC, to simplify VAT for small companies and self-employed courier drivers. This means drivers can charge VAT at the usual 20% and pay a lower amount to HMRC. The remaining balance is for drivers to keep, this can help to pay off their taxes at the end of the year - it's what we call the Beamin' boost!

What's included?

- We'll manage drivers' tax affairs, registering them for self-employment, so there's one less thing to think about.

- We submit accurate, on-time self assessments to HMRC each year, taking the pain out of tax returns!

- Simplified expenses process, with one place to add receipts and upload invoices, anywhere, anytime.

- Access to a whole heap of great benefits, including invoice management, wellness services, exclusive discounts and more!

And, if they're eligible...

- VAT registration on the drivers' behalf, generating a VAT number and helping them put money aside in their VAT pot.

- We submit and file drivers' quarterly VAT return to HMRC.

How can Beamin' benefit your business?

Beamin' provides peace of mind, ensuring that your drivers work with an HMRC-approved accountant and stay fully compliant with both UTR and VAT requirements.

The software is also a great way for you to retain drivers. For many drivers, self-employment is a new experience that can be confusing and challenging. Our Beamin' experts remove the stress and complexity of self-employment, helping to create a happier, more engaged workforce.

**Happy drivers = better retention =
more consistent and reliable service for your customers!**

See what people are saying.

> "I use Wise for all of my drivers, its easy to use, ticks all of my compliance commitments and it just makes sense! The team are fantastic and great to work with. Will continue to use and would recommend to anyone!"

Jamie Hardy - Ecodrive Logistics

> "Great company to work along side. I have been using wise since I started my Business in 2020 They will provide help whenever we need it. They are always looking at improving and simplifying their portal to make things easier. Thank you Team"

Andy Noble - A2B Logistical Solutions

> "Wise provide a very easy to use and convenient service & also simplify the tax process for self employed driver. The service has been a life saver for me as a business owner. They have a great client account management team, always very responsive and helpful"

Amy Tilley - Drum Ventures
